Re: South Parallel Runway Repair

Dear Chair Lanners:

On behalf on Northwest Airlines I would like to thank the MAC staff for all of their efforts managing the south parallel runway repair project. None of us were prepared for the weather complications that hit MSP during this period, but Gary Warren and his staff did a remarkable job negating those effects as much as possible and keeping us informed on a daily basis. Gary's dedication helped ensure that the impacts were as minimal as possible to all of the airlines and our passengers.

Sincerely,

Barry J. Hofer
Vice President, Facilities and Airport Affairs
